### PREPARATIONS

- PLEASE ARRIVE 15 MINUTES PRIOR TO YOUR APPOINTMENT TIME.
- No specific diet required for this examination.
- Continue taking all of your current medications. **Except the following:**
- After consultation with your treating physician, Stop taking anticoagulant drugs or blood thinner medications such as Plavix, Coumadin, Warfarin, Pradaxa, Xarelto, Eliquis 2-5 days prior to the procedure. If already on Aspirin you could continue. Bring a list of your current medications to your appointment.
- Examination cannot be done if you have an active infection or are on treatment for one.
- You must bring your own CORTICOSTEROID to your appointment.
- All other over-the-counter medications will be provided on site. A \$20 fee will be charged for all other over the counter medications.
- We recommend planning arrangements for a safe ride home.
- Avoid performing any dynamic activities using the injured area for 2 days following your injection, or as instructed by your doctor.
- If you experience severe pain, fever, chills, infection, or develop numbness in your limbs after the injection, contact your doctor immediately.
